

'DMGI' 3-PORT ISOLATORS

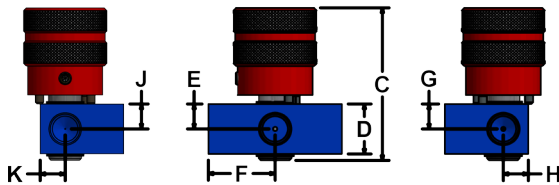

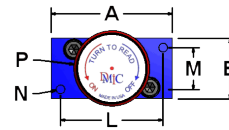

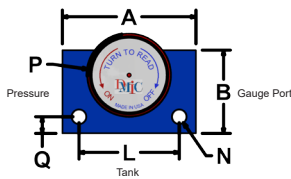

Models for 3000 PSI & 10000 PSI

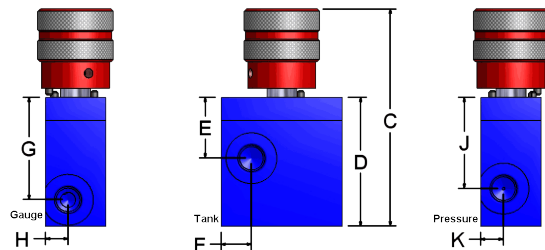

The '**DMGI-1**' is a spool design "Turn to Read" isolator for 3000 PSI systems. The exclusive DMIC '**DMGI-1Z**' Near Zero Leakage Isolator allows the user to retain a reading for extended periods, and is offered in 3000 & 10000 PSI versions. Both models are equipped for inline and panel mounting

- 1/4" NPT/SAE/BSP Thread
- Built in gauge snubber
- Affordable and reliable panel mountable design
- Optional Near Zero Leakage Model
- Please Call Factory to specify if for Low pressure / Gas applications
