

SNE Int-Ext Thread Simplifier 90°

Three-in-one swivel elbow from reservoir to thread/socket weld

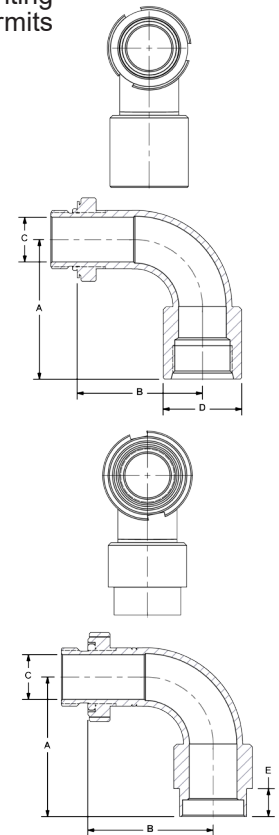

The SNE is ideal for placement of inlet valves in mechanically rigid flooded suction positions. Internal thread/socket weld allows mounting of strainer or baffle pipe. External thread with swivel feature permits perfect alignment of shutoff valve.

- Built-in pilot simplifies alignment to reservoir *
- Standard and expanded SAE/BSP ports.
- Choice of thread or socket weld internal connection.
- Available in Stainless Steel and special sealine.
- Suction to 400 PSI.

* NOTE: There is "NO" pilot on a Female SAE connection - "D"

Code	Description
1	Buna-N (standard)
2	Ethylene Propylene "EPR"
3	Viton

Choose Adapter Size
Replace ** with the desired adapter size.
Two different size codes selects step size option.

Alternate Internal Connection (Old SWE type)
Replace the "N" NPT-F standard internal connection with a Sch. 40 Socket Weld or other option from the "Internal Conn-F" table.

Alternate External Thread Standard
Replace the "S" SAE-M standard thread connection with a choice from the "External Thread-M" table. Please call to confirm price and availability.
